

I'd like to propose we provide a Cycle Toolstation in a prominent position on the High Street. A link to one provider is attached, the unit costs £995 + VAT, Installation would be simple.

Cheshire is a lovely place to cycle and Tattenhall enjoys many surrounding quiet lanes attractive to cyclists. In addition, whilst there is no prescribed route to cycle Lands End to John O'Groats, Tattenhall is on a number of the published routes and cyclists can often be seen stopping for supplies and a rest.

I think the addition of this would be worthwhile and ask the Parish Council to support its purchase.

Many thanks

Paul
