

NOTES FOR THE YOUTH COUNCIL

Here is some key pieces of information that may help you put together a flyer about Transition in our Village

There are 3 Key Challenges for our future. Transition is to actively change the way we think, live and behave to move from where we are in response to:

- *The Climate Crisis - Managing climate change in our village*
- *Making our local economy work well - Developing jobs and incomes for everyone*
- *Creating a community of strong and supportive relationships.*

Trusting only to Governments and those in charge is not enough - local people and communities can create changes.

Key areas for new initiatives might be:

Traffic and Transport

Footpaths
Pedestrian and cycleways
Traffic and speed limits
Alternative transport to cars
Walking Charter

Jobs

Training skills and new services

Schools and Nurseries

Play and access to safe social spaces
Youth clubs and facilities

News and Communication

Social Media, banners, hoardings

Community Safety

Police and rescue services - how to help

Health and social Care

Child support, counselling and advice.

A children, families and young peoples Plan.

Local foodbank services

Energy and waste

Recycling

Alternative energy sources and energy reductions

Upcycling

Use of Green Space

Flacca

Outdoor places to meet and play

Arts, Entertainment and Leisure

Barbour Groups

Ditzy Rose

Youth Club

Holiday activities

Mentoring and skills support

Community Workshop

You might think none of these but have other ideas!

The First Step is getting the idea of Transition talked about and developing ideas on how to make a different future.
